The special features were the handicap at a mile and an eighth and a five-furlong sprint that brought together for another meeting Leonard's Joe Hayman and Panic.

The handicap seemed to be between Old Stone and Spencerian, and it so proved in the running. The two disposed of the other contenders after the first mile, and then hooked up for the final brush. It was a close fit, but Spencerian, being the better fitted in having Martin for a rider, won the decision by a short nead, after a fierce drive in the last sixteenth.

Laonard's Joe Hayman easily proved his claim to be considered the best 2-year-old of the meeting when he ran away from Panic in the seventh race. An oddsion favorite in the betting, he gave his backers no uneasiness. Quick on his feet at the start, he romped away into a long lead early in the race and stayed there to the finish, whaning in a romp.

Whorler was a short-priced favorite for the high-weight condition race, at the same distance, and, with Martin up, he on easily enough. Homestead was returned the winner in another close fit in the third race, beat-ing Miss Betty by a narrow margin in the last few strides.

REPUBLIC SPECIAL New Orleans, La., March 15.-The stewirds at Panama track had a very busy time to-day separating the questions of foul riding and looking out for the bet-ting erd of the game. The first disqualification of the meeting came as the result of some rough riding on the part of Jockey Miller in the fourth race.

Miller had the mount on Jean Gravier, and when that horse was making a bold bid for the winning end of the purse he was allowed to so impede the progress of Lida Lieb and Pathos that the judges very promptly disqualifed Jean Gravier after he had finished second to Mary Worth, the favorite.

Worth, the favorite.

The first official action aside from the actual placing and watching the races came after the second event had been run. Red Ruler was a short-priced lavorite for the race, and it seemed to be evident before the start was made that Gannon would not be able to get him away from the post. When the start finally was effected, Red Ruler was left and traited his field home by a sixteenth of a mile. The judges, fearing that the horse might have been left at the post to order, sent for the bookmalkers' sheet. An examination showed nothing out of the way, and, as the Simons cold had been known as a bad cold, the incident was closed. With Red Ruler out of the way. Sharp Boy, the second choice, was able to get him in front. Trainer Riddle sent his usual favorite to the post in Libation in the first race, and, under a strong ride from Nicol, the brown cold was returned the winner over themsie.

Taxman, quoted at the good price of 6 to 1, was best of an unruly lot in the third and won easily. Postman, the favorite, was virtually left at the post, itigh wind scored for Simons at favorite's price in the fifth race, and Liddon, after being backed from 5 to 1 to 14 to 5, won an easy victory in the sixth. Autolight got away from the players in the closing number, for which he should have been one of the favorites and got home in front by a safe margin with a fancy price about him. Jockey McLaughlin met with a slight accident while riding Groegram in the second race, being carried against the fence and sustaining a broken toe and other injuries on his right foot.

Branham is showing up well, and may be taken to Kansas City as a result. Green, the crack half back, is putting the shot this year for the first time. He has good form, but does not seem to punch the shot for enough. good form, but does not seem to punch the shot far enough.

In the dashes Missourf also feels that she has more than an even chance. The men have been practicing on short work in the gym for several weeks, making spurts of fifty and thirty yards to get accustomed to the distance.

In the longer runs Missouri concedes that she stands a chance of losing. On account of the meet being held in the hall the hammer and discus throws will have to be given up, and this detracts from Missouris winning power, as the State University is rather strong in this department.

Coach McLean said: "Everything seems to be going all right, and I think Missouri will have no trouble in defeating Kansas in the meet. I feel very optimistic over the outlook, and can see no reason why Missouri should lose. Kansas has been able to keep some of her best men, white we have lost three of curs. but we still have the upper hand of them, taking event for event."

The side high jumpers are worried as to whether the juges will allow the standards to be moved in order that the contestants may get a straight run on the burded track or cinders.

It is proposed to have the high jump on the ground part of the court, but this is narrow, and will not permit the side jumpers to get their full run on the gravel, Delaney plans to start the first event at \$15 sharp. The coach yesterday received an entry from Ed Enos of the Alton High School in the fifty-yards handicap dass for high schools, Joe Reuter also sent in his entry for the 10 yards, 800 and 1,800 yards handicap. Delaney has accepted them and will allow Reuter, who is under suspension, to compete if he has cleared himself before the day of the meet.

Cardinals Could Not Go Through Regular Work at Marlin Yesterday-Shay and Beckley Still

Marlin, Tex., March 15.-Jupiter Pluvius ppeared here to-day in time to prevent the Cardinals from getting any practice. the Cardinals from getting any peactive.

The boys had to content themselves with benefits derived from the mineral springs and the gymnastics lacelent to several stiff games of pinochic. Neither Shay nor Beckley has reported, but both Nichola and M. Staniev Robison are confident that they will line up with the Cardinals when that team begins the regular campaign. In case Jake fails to report, substitutes for his position on the team will not be so hard to find, itig Murch, the sturdy boy from New England, will bear watching as a probable successor to St. Jacob.

sturdy boy from New England, will beer watching as a probable pictersor to St. Jacob.

Shey's absence, however, would hure the team. There is not a faster young inficider in the business than this fleet little kid from Prisca. He is also a good man on the bases, and he gets on them often enough to make his presence felt on the bags.

All the Cardinals' pitchers are rounding into shape nicely Taylor is in the pink of condition and could get out to-morrow and pitch a regular game if he were required to do so. McGinley finds no ill effects from the operation performed on him for appendicitis last winter.

Both Robison and Nichols are hoping for the appearance of Beckley, but if the Sage of Hannibal does not join the club Mike Grady or Murch will succeed him. Mike is the more likely candidate.

Davy Brain and Chappy McFariand are in great shape. The pair were in training long before the rest of the bunch, and they are ready right now. Manager Nick is also locking in the pink of condition. In fact, the entire squad expresses antisfaction with the way things have turned out, and, had the weather been a bit more favorable. Nichola's club would have been in good shape.

The Cardinal regulars will leave Mariin to-morrow. They play in Fort Worth Friday, and then begin a campaign homeward, including dates at Waco and Oklahoma City.
